Q #11 Multiple Choice Type | Award: 2 | Penalty: 0.67 | Verbal Aptitude

Which of the following cannot be logically inferred from the given passage?

Coronavirus disease (COVID-19) is an infectious disease caused by a newly discovered coronavirus.

Most people infected with the COVID-19 virus will experience mild to moderate respiratory illness and recover without requiring special treatment. Older people, and those with underlying medical problems like cardiovascular disease, diabetes, chronic respiratory disease, and cancer are more likely to develop serious illness.

The COVID-19 virus spreads primarily through droplets of saliva or discharge from the nose when an infected person coughs or sneezes, so it's important that you also practice respiratory etiquette.

A. Most corona virus affected patients recover without special care.
B. COVID-19 is severe on older people.
C. COVID-19 is not dangerous if you are young.
D. Maintaining hygiene helps in controlling COVID-19 spread.

Your Answer: | Correct Answer: C | Not Attempted | Time taken: 00min 00sec | Discuss
